**SADC-RTGS: ANNUAL FAILOVER TO ALTERNATE SITE AND ASSOCIATED TESTING ARRANGEMENTS**

Participants are requested to take note of the following in the SADC-RTGS system environment:

The South African Reserve Bank (SARB) as settlement system operator will failover the SADC-RTGS system and all related components to the alternate site and operate from there as part of scheduled annual BCP testing. The failover date to the alternate site is scheduled for 20 October 2018, and the switch back to the primary site is scheduled for 10 November 2018.

The SARB and SADC-RTGS teams will be conducting the testing on these weekends, and we do not foresee a requirement for assistance from the industry
