SADC-RTGS OPERATIONAL NOTICE: 003/2020

SCONNECT AS ALTERNATIVE TO JAVA APPLET

In March 2019 SWIFT introduced SConnect as an alternative solution to the Java Applet technology employed to access their products and services. Users were requested to install the SConnect browser extension by no later than 31 December 2019, it being the date from when SWIFT products and services would no longer support Java.

Participants who have not yet done so are requested to install SConnect as not doing so may impact on your ability to access SIRESSWeb as well as other SWIFT services supporting SConnect

For further information to assist in installing SConnect on user workstations participants can access the below SWIFT link.
